

Name: Elise Chu

Class: 6D

My Dream Job

When I grow up, I want to be a fashion designer because I am good at drawing and I love clothes. It's a perfect way to express myself. If I become a fashion designer, I need to be creative, have excellent drawing skills and excellent communication and interpersonal skills because I need to work with clients from all over the world. I also need to be patient and hard-working.

If I become a fashion designer, I will work in the office and I will design clothes and create my own brand. Also, I will have a fashion show. After becoming a fashion designer, I may design clothes. The clothing will be worn by millions of people. I will change the trend in my style.

In order to prepare myself for this job, I will study fashion design in the college or university. I think this job is suitable for me because I enjoy drawing. Drawing is an important skill for a designer. I hope my dream will come true.
