Join the Halloween fun

FROM creating your own costumes, baking delicious treats to joining community events, there is plenty of fun to be had on this beloved spooky holiday.

Playing dress up

ON this special night, kids dress up as all sorts of characters, from superheroes and princesses to ghosts and goblins. But did you know that creating your own costume can be a fun project?

Instead of buying a costume, you can make one using things you already have at home! You can turn an old sheet to turn yourself into a ghost or use cardboard to create a robotic suit. Making your own costume saves money and also lets you show off your creativity. The process can also be a special family activity.

Spooky treats and sweet surprises

HALLOWEEN is also a fantastic time to get creative in the kitchen. You can make fun Halloween-themed treats like 'witches' fingers' using cookies and almonds or 'pumpkin' cupcakes decorated with orange icing.

Do not forget about healthy snacks too! How about making spooky fruit faces with bananas and grapes? You can use chocolate chips as eyes and create silly smiles. Sharing these treats with friends and family makes Halloween even more special.

Community fun

HALLOWEEN is a time for community fun! Many neighbourhoods organise events like pumpkin carving contests, haunted houses, and trick-or-treating parties. These activities bring everyone together and helps create a sense of friendship.

Participating in a local Halloween event is a great way to meet new friends and enjoy the festive spirit. You can team up with your friends and go trick-or-treating together, making it a fun adventure as you visit different houses and collect candy.

Don't forget to say 'thank you' when you receive treats!
