Why did the calendar go to therapy?

JOKE

CNY Riddles

I light the sky at New Year's start, loud and bright, I burst apart. Red and gold, I bring delight. What am I?

I soar high with painted faces, kids cheer as I fly in places. What am I?

I'm round and orange, hanging with luck, peel me for fortune – what am I?

Soccer Star

I dream of being a soccer star,
Kicking the ball and running far.
On a green field with my friends so near,
We laugh and play with no fear.

I practice hard every day,
But this is more than "play".
When I score the goal the crowd shout "Hooray!"
I run with joy, what a perfect day!

One day I will shine under the sun,
Being a soccer star is so much fun.

Cherish Nature

Pelicans soaring through the sky,
While cheetahs disappear in the blink of an eye.
Orcas moving as swiftly as spies.
Nature is not a leader as the animals are always ahead.
Nature never kills, only creates.
Tarantulas spinning a web made of silk thread.
Getting bigger after each molt,
Gaining strength during its growth.
Honeybees swarming their hive.
Everywhere is truly alive.
Polar bears stalking prey.
Narwhals proudly swinging their tusks.
Saying, "Others won't have the guts to mess with us."
Autumn is coming, the breeze whispers,
"Nature must be cherished, because there will never be another."
Remember, nature should not just survive, but thrive!

Outside Forest

One big forest to explore,
Unwandered yet easy to roam.
Too many questions.
Snakes, wild pigs, crocodiles.
It's nature waiting to be found.
Dangers incoming!
Everyone's excited.
For who doesn't know?
One mistake
Ruins one's life.
Every move of nature has a meaning.
Spreading danger.
The mysteries of an outside forests are unchecked.

I Dream of Learning

Dreams help us imagine,
I like dreams that shine.
I love to read new stories,
In the library, ALL the books are mine.

English gives me new words,
So I can speak and write.
Art is bright and beautiful,
Like my dreams at night.

Maths has lots of numbers,
To count and add and play.
Science is full of experiments,
Like making a volcano spray.

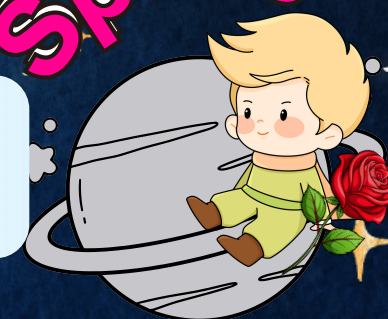

Learning is so wonderful,
There's always more to do.
Every day brings something new,
For me and maybe you!
